

ValueH Partners with Clover Health

Partnership enables Florida-based providers to enter into value-based care, stay whole, and competitive: with no downside risk as part of ACO-REACH program

ValueH, the leading member organization in the US with a focus on Value-Based Care and the new frontier of healthcare, and Clover Health, a leader in care management technology and risk management, are offering independent providers an excellent ACO-REACH package currently on the market.

This offering is for independent physicians not currently in an ACO. You must sign-up by August 4th, 2021

Through this partnership, ValueH and Clover Health will provide independent physician organizations with:

- 50% shared savings rate with no downside risk
- 100% of fee-for-service paid by the CMS contracting entity
- Population health technology that pays providers \$30 per visit up to 4 times per year for same patient.
- Policy expertise and advocacy backed by the Florida Association of ACOs (FLAACOs) Board of Directors

ValueH members will have access at no charge to Clover Health's point of care technology, Clover Assistant, enhancing their ability to provide great, personalized care to their patients. Participating providers benefit from:

- Unified, Actionable Data: access to lab results, prescription lists, and previous diagnoses, including those from other clinicians
- Personalized Care Plans: receive and share new information at each patient visit and have access to clinical decision support
- Simple, Fast Reimbursement: receive \$30 bonus within 7 days for each patient seen using the Clover Assistant

ABOUT FLORIDA ASSOCIATION OF ACOS

Founded in 2012, the Florida Association of Accountable Care Organizations (FLAACOs), a ValueH organization, is the premier professional organization for accountable care organizations and healthcare leaders throughout Florida and beyond. The Florida-based healthcare association brings together organizations that drive providers to work together to increase the quality of care delivered to patients while significantly lowering medical costs overall.
